

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-23 (Cancelled).

24. (New) A composition comprising, in a physiologically acceptable medium, particles of at least one composite pigment comprising a mineral core, wherein the mineral core is at least partially coated with at least one organic pigment, and at least one binder.

25. (New) The composition according to Claim 24, wherein the at least one organic pigment is chosen from Color Index (CI) 42090, CI 69800, CI 69825, CI 73000, CI 74100, CI 74160, CI 11680, CI 11710, CI 15985, CI 19140, CI 20040, CI 21100, CI 21108, CI 47000, CI 47005, CI 61565, CI 61570, 74260, CI 11725, CI 15510, CI 45370, CI 71105, CI 12085, CI 12120, CI 12370, CI 12420, CI 12490, CI 14700, CI 15525, CI 15580, CI 15620, CI 15630, CI 15800, CI 15850, CI 15865, CI 15880, CI 17200, CI 26100, CI 45380, CI 45410, CI 58000, CI 73360, CI 73915, CI 75470, and CI 77266.

26. (New) The composition according to Claim 24, wherein the at least one binder is chosen from silicone compounds, polymeric compounds, oligomeric compounds, organosilanes, fluoroalkyl organosilanes, polysiloxanes, and couplers, and mixtures thereof.

27. (New) The composition according to Claim 26, wherein the at least one binder is chosen from organosilanes, fluoroalkyl organosilanes, and polysiloxanes, and mixtures thereof.

28. (New) The composition according to Claim 26, wherein the coupler is chosen from silanes, titanates, aluminates, and zirconates, and mixtures thereof.

29. (New) The composition according to Claim 26, wherein the at least one binder is chosen from polymeric compounds.

30. (New) The composition according to Claim 24, wherein the mineral core is colored.

31. (New) The composition according to Claim 24, wherein the mineral core is chosen from metal salts, metal oxides, aluminas, glasses, ceramics, graphite, silicas, silicates, and synthetic micas, and mixtures thereof.

32. (New) The composition according to Claim 31, wherein the metal oxides are chosen from titanium oxide, zirconium oxide, cerium oxide, zinc oxide, iron oxide, ferric blue and chromium oxide, and mixtures thereof.

33. (New) The composition according to Claim 32, wherein the metal oxide is TiO_2 .

34. (New) The composition according to Claim 31, wherein the silicates are chosen from aluminosilicates and borosilicates, and mixtures thereof.

35. (New) The composition according to Claim 24, wherein the at least one composite pigment is present in an amount ranging from 0.1% to 20%, by weight relative to the total weight of the composition.

36. (New) The composition according to Claim 35, wherein the at least one composite pigment is present in an amount ranging from 0.5% to 10% by weight relative to the total weight of the composition.

37. (New) The composition according to Claim 24, wherein the composition does not comprise uncoated TiO₂ particles.

38. (New) The composition according to Claim 24, wherein the size of the particles of at least one composite pigment ranges from 0.001 µm to 150 µm.

39. (New) The composition according to Claim 38, wherein the size of the particles of at least one composite pigment ranges from 0.05 µm to 10 µm.

40. (New) The composition according to Claim 24, wherein the particles of the at least one composite pigment are less than 2 µm in size.

41. (New) The composition according to Claim 40, wherein the particles of the at least one composite pigment are less than or equal to 1 µm in size.

42. (New) The composition according to Claim 41, wherein the particles of the at least one composite pigment comprise a specific surface area ranging from 1.5 m²/g to 300 m²/g.

43. (New) The composition according to Claim 24, wherein the density of the mineral core is higher than the density of the at least one organic pigment.

44. (New) The composition according to Claim 24, wherein the density of the at least one composite pigment is higher than the density of the at least one organic pigment.

45. (New) The composition according to Claim 24, wherein the at least one organic pigment is fixed without any covalent bonds onto the mineral core.
46. (New) The composition according to Claim 24, further comprising at least one cosmetic or dermatological active agent.
47. (New) The composition according to Claim 24, further comprising at least one compound chosen from fatty substances, waxes, gums and film-forming polymers.
48. (New) The composition according to Claim 24, wherein the composition is in a solid or semi-solid form.
49. (New) The composition according to Claim 24, wherein the composition is in liquid, paste or gel form.
50. (New) The composition according to Claim 24, wherein the composition is a lipstick.
51. (New) The composition according to Claim 24, wherein the composition is a foundation.
52. (New) The composition according to Claim 24, wherein the composition is a nail varnish.
53. (New) The composition according to Claim 24, wherein the composition is mascara.
54. (New) The composition according to Claim 24, wherein the composition is a product for dyeing hair fibers.

55. (New) A process for making up the skin, the lips, and/or the integuments, comprising applying to the skin, the lips, and/or the integuments a composition comprising, in a physiologically acceptable medium, particles of at least one composite pigment comprising a mineral core, wherein the mineral core is at least partially coated with at least one organic pigment, and at least one binder.
